Robert Smith

Java Architect

PERSONAL STATEMENT

With 15 years of IT experience, worked in all phases of software development life cycle from requirements gathering to the production and successfully implemented several projects with responsibilities as developer, architect, solution design/architect, including preparing and presenting technical case studies about expertise in specific Java technology areas like Scalable and secured Enterprise Java applications, leveraging Open source

WORK EXPERIENCE

Java Architect

ABC Corporation - June 2013 - November 2014

Responsibilities:

- TECHNOLOGY: JAVA, J2EE, HIBERNATE, SPRING, ANTOC OF, CLEAR CASE, STRUTS, TOMCAT, ORCL, JSP, JUNIT, JQUERY, JPA, MAVEN, TEST, WEBSIDE, SOLA, UML, IN CORNACTA, POWERCENTER, FLX, AGILE (SCUM), PERL, KSH, SHELL SCRIPT, SOLARIS, SERVALET, UNIX, LINUX, ORACLE, ORACLE AUTORA'S (JDBC, ECLIPS, SPINOC).
- RESPONSIBILITIES: Involved in Object Oriented Design/Object Oriented Analysis with usage of UML Sequence Diagrams and Class Diagrams with Rational Rose.
- Include analysis of these various applications, designing of the enterprise applications, co-ordination with client and offshore team, meetings with business users, functional and technical guide to the offshore team, project management Designed UI using JSP and HTML, and validated with JUnit/JSP for providing the user interface and communication between the client and server.
- Implemented MVC architecture by developing struts framework.
- Struts Validator Framework is used to do client side validation.
- Implemented the Spring dependency injection of the database helper instance to the action objects.
- Used Ajax, DDDO, Java script, Spring and GWT to create interactive user interface.

Java Architect

DETA Corporation - 2009 - 2013

RT Tà ™ à € Á € NSI TI hear from you. This keeps them simple and relatively easy to modify, but restricts their functionality substantially. Dynamic web projects have more advanced components such as Java, PHP, ASP, etc. So, restart Eclipse, and this is, We recommend Bookmarking this post so you can get back to it later. If you have another eclipse version on your system, you will have to use a different link. They only have essential components of web development, such as HTML and CSS. In this case, select close to the head to the design facet page and choose Java versions 1.4 there. Now you can start Dynamic Web Projects in Eclipse quickly. Please select it and click on to connect the Java version selected to the run time. You can learn more about Java and your related solutions on our blog. You can see the contention of your project by selecting it, and that's it. The following are some articles for your additional reading. They all require different steps. First, let's discuss the situation where you do not have the execution time of the installed server. It would be best if you have chosen dynamic web projects on static web projects because of these installations. You successfully fixed the error in Eclipse. Read: 15 Exciting Topics of the PHP Project for Beginners Final Thoughts We hope you have found this guide about useful web projects. The folder icon is decorated to show that a Java source folder. Before selecting the "Simulty" button, you first have to take care of the target run time. Step # 4: There are three possibilities in this section: You can have the execution time of the server installed, not installed or the field may be blank. In this case, you do not need to choose any destination runtime. Icon representing a design is decorated with a J to show that it's a acit;Átse acit;Átse beW a ertne a\$Anerefid a ©Á lauc ©A sonula so ertne mumoc atnugrep amU socimeÁnid e socit;Átse beW ad sotejorp ertne a\$AnerefID .ra\$Aemoc somaV .avaj and dynamics. We regularly share informative and exciting resources (like this) there. Step # 3: Now you will see a pop-up menu where you need to enter the name of your project. Once done, click the "Finish á" € "button, and this will still end. Step # 5: Now we give our name a name and select your run time, we only have to do some formalities to start our Eclipse Dynamic Web Project. In this case, the destination run time field would not have any options automatically configured. In the first page "Enter the project name, select the Java Runtime (JRE) environment or leave it in the pattern select the project layout that determines whether a separate folder for source and class files . Now select "NextÁ € á €" to proceed to the next step. If you have any doubts or thought about this article, let us know through the following comment. Enter your name from Desired design. When you complete the previous step, you will see a license agreement, select Yes to accept it and proceed to the final step. Step # 6: Select "" Simá á € "in the new window. "Web Development, XML, Java Ee and Osgi and, below, select these three options: Eclipse Web Developer tools eclipse java ee developer tools eclipse java web tools you saw many other options but ignore -The for now The Apache Tomcat V5.0 selection software as the default destination run time. If you are interested in learning more about complete stack development, check out the Executive PG update and IIIT program. -B in software development - Specialization in complete stack development, which is designed for work professionals and offers more, B-IIIT ,B-IIIT sonula-xe ed sutats, sepÁ\$Áiubirta e sotejorp + 9 .osorogir otmemaniert ed saroh 005 hands-on capstone projects & job assistance with top firms. However, it is possible to have the Target runtime field blank. When youeÁÁÁd head to EclipseeÁÁAs menu now, you would find the dynamic web project option. Viewing the Newly Created Project The package explorer shows the newly created Java project. If you don'eÁÁÁt see the option to launch a dynamic web project, then you should follow these steps to fix this issue: Step #1: Open Eclipse in your system and click on the eÁÁÁHHelpeÁÁÁ button. It is a common error and frustrates many people. The recommended option is to create separate folders for sources and class files. Static web projects don'eÁÁÁt have Java and its related technologies (JSP, servlets, etc.). Dynamic web projects allow you to manage more information and create complex and advanced websites.Á Á Read:Á ÁJava Project Ideas & Topics How to Launch a Dynamic Web Project in Eclipse Step #1: First, weeÁÁÁll start Eclipse and switch to the Java EE perspective.Á Á Step #2: Click on the eÁÁÁFileeÁÁÁ button, which will show you a menu. They have a lot of focus on server-side development. It would open the J2EE perspective where you can see your newly created project under the Dynamic Web Projects folder of the Project Explorer. Fixing the Eclipse Dynamic Web Project Missing Error Sometimes people caneÁÁÁÁt find the option to start a dynamic web project in Eclipse. YoueÁÁÁd see the Apache Tomcat v5.0 appear in the eÁÁÁARuntimeseÁÁÁ section. Select eÁÁÁANeweÁÁÁ there and choose the dynamic web project option there. After the software installation finishes, youeÁÁÁd see a popup that would ask you to restart Eclipse. We have answered multiple crucial questions related to dynamic web projects in Eclipse so you can remove your doubts. doubts.

Project News WTP 3.25 Released! Posted Mar 16, 2022 | Permalink The Eclipse Web Tools Platform 3.25 has been released! Installation and updates can be performed using the Eclipse IDE 2022-03 Update Site or through any of the related Eclipse Marketplace.Release 3.25 is included in the 2022-03 Eclipse IDE for Enterprise Java and Web Developers , with selected portions also ... 20/12/2018 · Mobile Tools for Java Eclipse Project.
